Training Title: Auditing techniques

Internal audit is a tool that contributes to the continuous improvement of the organization, the company, the processes, and to verify the relevance and effectiveness of the QSE management system in place. This training allows you to acquire the internal audit techniques of a management system on a given normative reference (ISO 9001 or ISO 14001 or ISO 45001 or ISO 50001 or ISO 22000) in order to verify the performance of the management system concerned.

Reference:	**Category:**	**Duration:**
Trainevo-022022-QSE-03	QSE	1.5 jrs
Language(s):	**Training organization:**	**Number of participants (minimum):**
French	TRAINEVO TRAINING SERVICES	6
